Academics

HOOP IT UP! Austin Skaggs dodges Mr. Mjos and tries to score. The eighth grade boys "blue" and "white" teams challenge the faculty to a basketball game. The members of the faculty display their hidden talent and beat the boys.

WHY DID THEY PICK ME? Jeremy Crawley and Robby David discuss surprising results at the seventh and eighth grade awards ceremony. These two students were awarded "Outstanding Student" awards by their coaches and teachers in the spring of 1992.

ARE YOU SLEEPING? Aaron sneaks a nap during Mr. Ramirez's history class. Some students, who surely stayed up late the previous night studying, use their classes as an excuse to catch a few Z's.

TWISTER TIME . . . Angela Grady and Patricia Miranda shake up a tornado to observe while learning about these destructive weather formations in Earth Science class.

MMM MMM ... Mrs. Meredith enjoys pizza while decorating for the "Night Under the Stars" dance.

VOTE FOR ME ... 1992 is the presidential election year ... Seventh graders practice their campaigning skills in a classroom election.

DREAM A LITTLE DREAM ... Mrs. Knussman takes a break from her secretarial duties and daydreams.

WHAT IN THE WORLD ARE YOU DOING? Kristen Quebe questions Mr. Miller while he helps Crystal Trevino conduct a water salinity test.

NO PLACE LIKE HOME ... Alisa Cook looks asleep on the floor of Mrs. Meadows's classroom. Her advisory class dressed up as hoboes on Halloween. These "streetpeople" adorned themselves with newspapers and set up camp under desks, chairs, and on the floor for the judges. The class took second place in the costume contest.

COMPUTER GAMES. Seventh graders dissect a frog on the computer before examining the real thing.

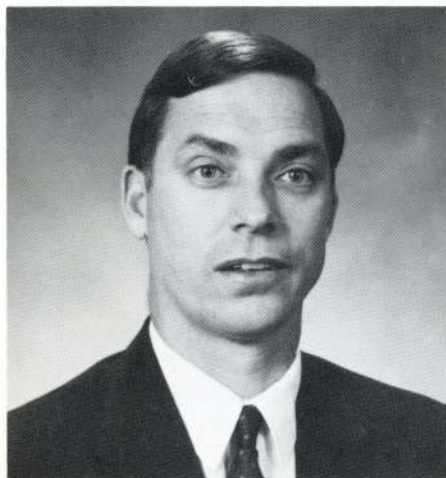

The World's Best Faculty

PEEK A BOO! David O'Neill, our principal at Georgetown Junior High, peers through the potted plants in the library.

HE'S EVERYWHERE! Carlos Cantu, the assignment principal, searches for rule-breaking students in the most unsuspecting places.

Dr. Jim Gunn, superintendent of G.I.S.D., is often seen on the Junior High campus.

NEED ANY ADVICE? Becky Hoppe, the eighth grade counselor, helps eighth grade students with their class choices for high school.

HELPING HAND ... Terri Bocella, the seventh grade counselor, helps seventh graders with schedule problems.

WESTON'S THE NAME, BOOKKEEPING'S THE GAME ... Spending your time working with books is no easy job. Mary Weston, our librarian, organizes, fixes, orders, and checks out books in the library. As one of her more relaxing jobs, reading her books is the most enjoyable.

FIRST AID ... Bernice Jenkins, the nurse, takes temperatures, checks eyesight and hearing, and gives prescription medicine to many students around school.

Explore The World Of Education

A LITTLE HELP FROM MY FRIENDS ... Student Council members display their Christmas spirit by collecting food items for the needy. From December 8-16, canned goods were collected to distribute to needy families in the area. More than 1,400 food items filled five 55-gallon barrels for volunteers to hand out.

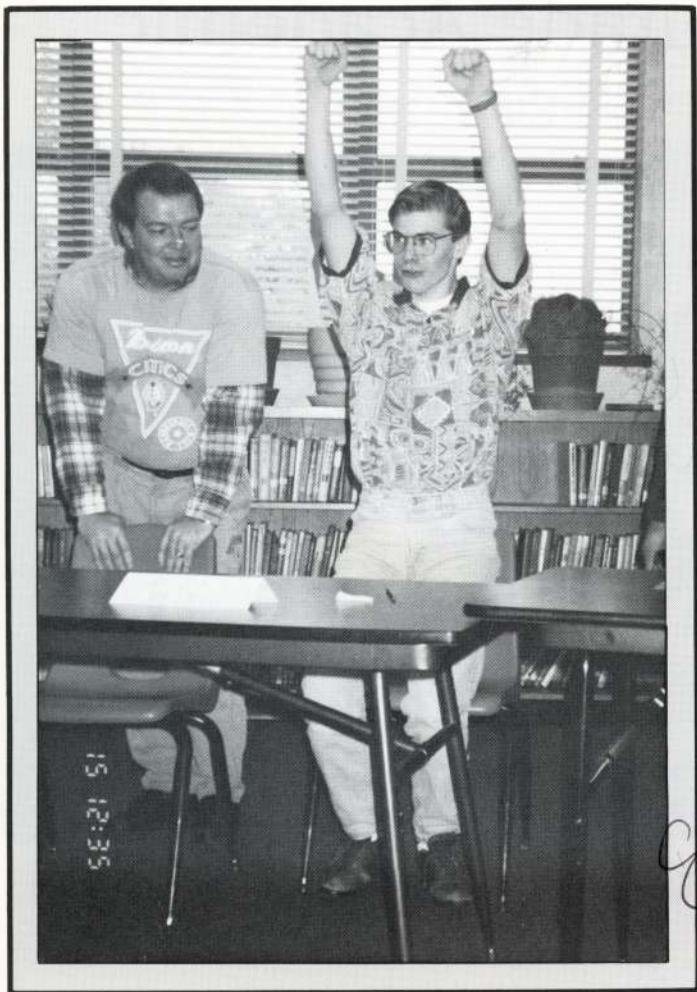

STICK'EM UP! Karen Coburn portrays infamous gangster Clyde Barrow in Mr. Ramirez's Wax Museum. Students participating in this event read books and researched a famous historical person and then posed as wax figures in the library.

BURN, BABY, BURN. Josh Brookshire holds a strip of Magnesium over a Bunsen burner. The two elements react to produce a small explosion.

WHAT IN THE WORLD ARE YOU TALKING ABOUT? Alisa Cook tries to explain her idea for the yearbook to Amber Mason. Taking pictures, writing captions, and identifying people in pictures is no simple task. All of these responsibilities must be completed to perfection to ensure a perfect yearbook.

I KNEW I COULD WIN! Eric Beins leaps out of his chair and raises his arms after a victory in the Geography Bee, while his history teacher, Mr. Choate, looks on with approval. Students competing passed a preliminary test to participate in the finals. Questions were both written and oral.

LUCKY LOTTERY! Kirt Shell picks numbers for his Computer Literacy class lotto.

PLAY THE STOCK MARKET ... Alexis Wright, Doug Lear, Amber Mason, and Stacey Miller gain valuable experience in the stock market. Each student inherited 20,000 imaginary dollars to invest in five stocks of their choice. The stock's status and how much money is gained or lost is recorded every week.

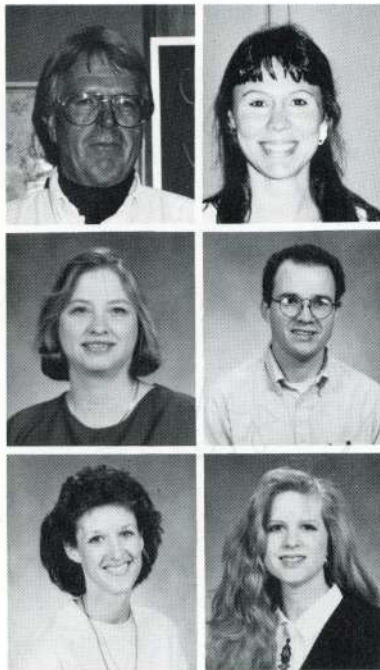

POUR A LITTLE SLOWER ... Scott Vrabel and Robby David conduct an experiment on water salinity. Students pour three different water-and-salt solutions down a tilted tube and clock the time takes the different colored solutions to travel down the tube.

JUST ANOTHER LINK IN THE CHAIN ... Josh Lake staples links to the "Million Minutes to May" chain. This program gives parties and treats as an incentive to read. Students on the Delta and Explorer team keep a record of their reading and turn it in at the end of the week. Each hour read adds a link in the chain.

Musicians At Work

WHAT IS THAT NOISE? The Honors Band practices hard before their concert.

Mrs. Engelby, the Symphonic Band director, and Mr. Faust, the honors Band director, bring expertise and excellence to the band. The directors selected officers for the band. President - Joel Darby, Vice President - Robby Space, 7th grade Rep. - Erin Vargo, and the managers - Jason Warren and David Vancamp.

December 12th both bands performed a concert at which the Honors Band received a standing ovation. May 1st the Honors Band attends the Houston Bayou Classic Music Concert, and the Symphonic Band attends the Pops N the Park Concert at Schlitterbaun. Emily Polasek and Erin Vargo agree, "Band is an experience never to be forgotten."

Jason Warren places first at Regional tryouts in percussion. Accompanying him as alternates were Robby Space - bassoon, Hannah Swinbank - flute, and Teresa Wegner - oboe. Many band members made District Band. Both bands practice hard, work hard, and excel.

Eighty-nine of Georgetown Junior High School's students surround themselves in a world of music each day. With the help of lots of practicing Mr. Johnson's students thrill audiences throughout the area. In the fall the G.J.H.S. This should help our Choir be "Out of This World!"

High School A Whole New World

Most people share fears about going to high school. Many people worry about being the youngest in the school. "I am afraid of getting trampled," Krista Hardy admits. Stacy Henderson, afraid of eating cafeteria food, shares a common fear among junior high students. Shifting our attentions to things to look forward to, Celeste Alexander says she eagerly awaits the freedom that comes with high school. Stephanie Gage looks forward to going to high school with some of her older friends. Some look forward to high school, others dread it, but one way or another we all have to go.

AM I GORGEOUS OR WHAT? Halloween turns Austin Townsend into a drugfree cheerleader.

LET'S GO! Tiffany Castro, William Green, Vanessa King, and Tracy Ferguson head to their next class.

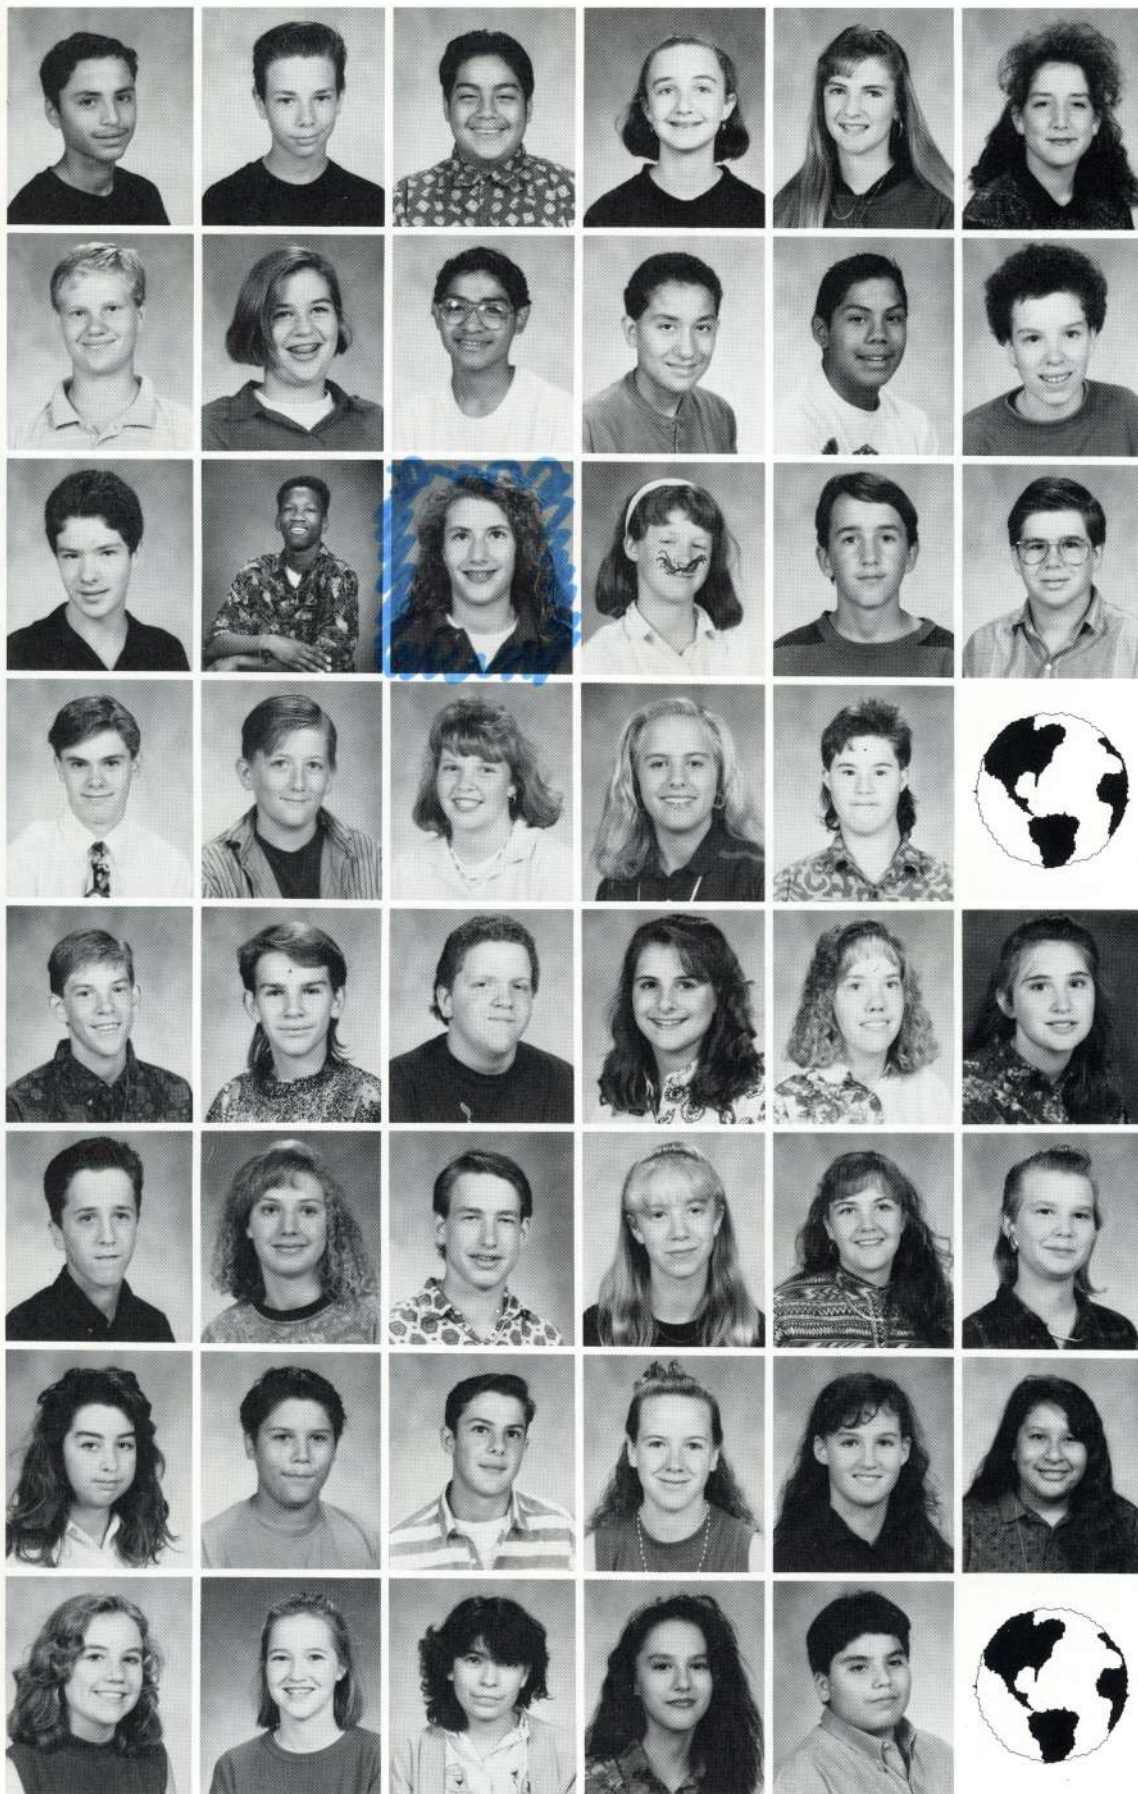

LEAN ON ME. Shannon Heidemann leans on Charlie Merton for moral support to get through another day of school.

WHAT KIND OF DANCE IS THAT? Drill team members Tori Ramsey, Jessica Brannon, and Ivette Gonzales enjoy a football game.

WHAT'S FOR LUNCH? Brady Martin relaxes as he eats a cafeteria lunch with his friends.

Activities Keep Students Busy

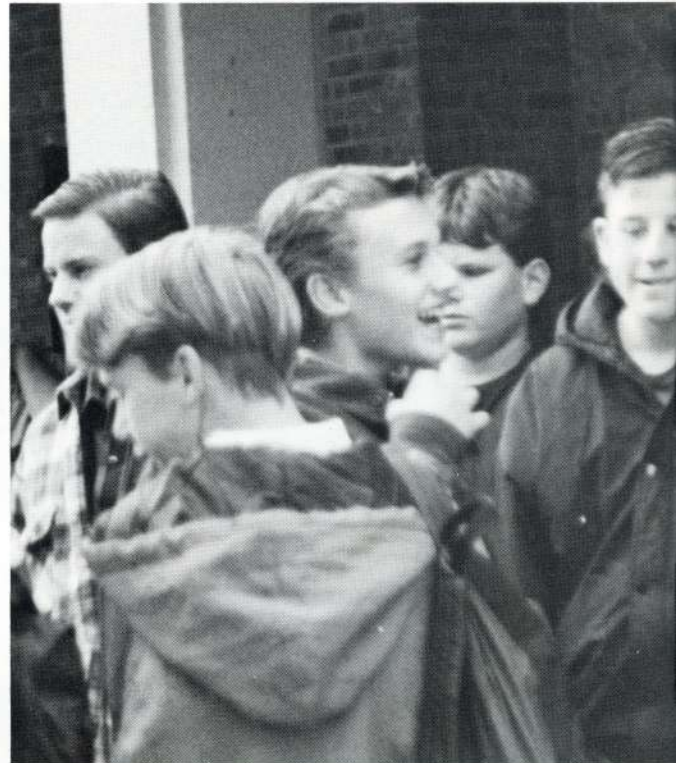

When not learning at school, students always do something related to junior high. Many activities, planned by various organizations, keep junior high students on the move. A great number of students use this time to socialize and get to know each other. The exciting football and basketball games provide a great time to loosen up from the hard work and stress of junior high for all seventh and eighth graders. In one way or another, junior high students keep active.

BATTLE CRY! Seventh graders defend themselves in the battle cry against the eighth graders.

A longtime tradition for pep rallies at Georgetown Junior High, eighth and seventh graders sit on opposite sides of the gym while the team members watch the cheerleaders raise school spirit. Blue Flames also perform their latest routines to get the Eagles fired up. A new group helps boost school spirit - the twirlers, who dance and twirl to the music of the honor band. Each grade deafens everyone with their battle cry; all join together for the Eagle battle cry. The cheerleaders vote on the loudest. (As tradition has it, the eighth graders always wins.) To end a pep rally everyone links pinkies and sings the school song. The tradition of pep rallies rounds out the world of junior high.

VICTORY! Eighth graders compete in the battle cry as they cheer on the football and volleyball players.

8th Football

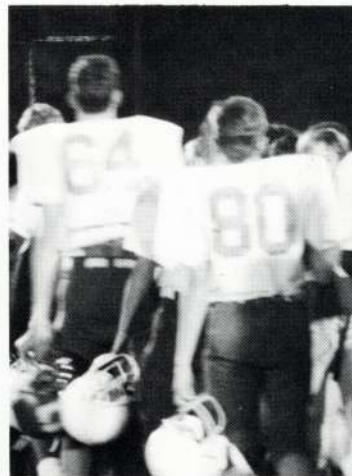

Working hard and long hours of practice in extreme heat, these hardships can be called the sport of football. Our G.J.H.S. seventh and eighth grade football teams went through many aches and pains to achieve their goals of winning. The eighth grade "A" team holds a record 2-5-1, and the "B" team's record includes 7-1. The seventh grade season portrays wins and losses. The "A" team's record sums up to 5-1-2, the "B" team's record equals 7-1, and the "C" team's record with 0-5-2. The Eagle football season fills with frustration because of losses, and excitement when the guys return home victorious.

MAKE EYE CONTACT. Poised and ready to attack, the Eagle team concentrates on the ball and their Travis opponents.

CHARGE! When you're grasping the football it feels like the whole world is in your hands, and Aaron White takes it for a touchdown.

Boys Basketball

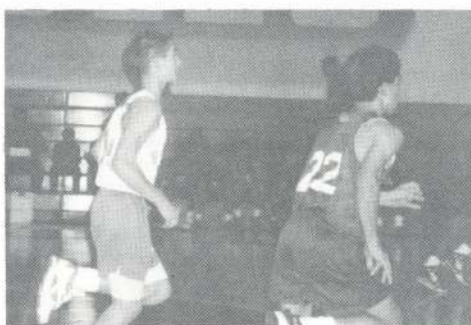

The boys' basketball teams at G.J.H.S. strive to conquer their opposing teams. Triumphant over their opponents comes with the determination to work and practice hard. Coach Sivertson coaches the eighth graders while Coach Munoz coaches the seventh graders. The team functions as a group when practicing and especially at their games. When the Eagles practice they work on various drills, such as passing, set shots, and lay-ups. These drills prepare them for the future. Chris Clayman replies, "I have fun with the team, Coach wants us to be the best, and he is preparing us for highschool." The Eagles accomplish victories by practice as well as defeats. If the Eagles keep working and practicing hard they will continue to have awesome season that occurs now.

Elected in the spring, the 1992-93 cheerleaders attend NCA camp at Southwestern University, where they received the Top Team Award, two blue ribbons, and one red ribbon. They also earned the Safety First Award and an NCA Spirit Stick for their outstanding safety and spirit throughout the week. In addition to attending camp during the summer, the cheerleaders paint spirit signs and run-throughs for football games. At Back-to-School Night in August, the cheerleaders serve as guides for seventh and eighth grade students and their parents. They also sponsor a fundraiser to sell t-shirts, promoting school spirit.

The Blue Flames also dance at some junior high basketball games. Helping keep spirits high, the Drill Team excites fans with high-kick routines at the pep rallies. As a service project this year, they helped in a food drive for the Round Rock Humane Society gathering food and other needs. The Drill Team will aid members in future dance experience, and learn the fine art of dancing while having fun with friends. The Blue Flames exhibit skill, talent, and spirit for GJHS. These characteristics show below as Brook Hampton, a seventh grader, cheers for a basketball player.

They also sponsored a dance, Night Under the Stars. It recorded the highest number of tickets sold in the history of the junior high. In the event of inclement weather, members spend time building and repairing their rockets, as well as learning new techniques to improve the performance of their rockets. In the future, some of the members may go on to become great astronauts or rocket scientists.
